

# **BRIDGEPORT V650 5AX**

### 5-Axis Vertical Machining Center

Bridgeport V650 5AX 5-Axis vertical machining center is developed and designed to meet the processing needs of complex parts in high precision manufacturing industries.

19" Multi Touch Display Modular Integrated QWERTY Keyboard Ethernet Interface, 2x USB 3.0 Processing Step Programming/Graphical Man-Machine Interface Graphical 3D Simulation 5-Axis Imputation Look-Ahead of Max. 3000 Blocks 2D/3D Collision Avoidance Zero Offset 100 Sets Number of The Tool / Number of Cutting Edge 600/1500 Online Help Function CNC Internal 6MB, External Memory 10M Helical Interpolation Max of NCU Program 1000 High-Speed Interrupt Continuous-Path **Auxiliary Functions** Tool Life and Workpiece Count Monitoring Network Management Universal Interpolator NURBS (Non-Uniform

#### Siemens Sinumerik One Control System

The latest generation of high-end CNC system from Siemens adopts a newly designed hardware platform, which improves the operation speed and precision in an all-round way. The machine simulation function is deeply integrated to provide users with more convenient processing program simulation and processing cycle simulation.

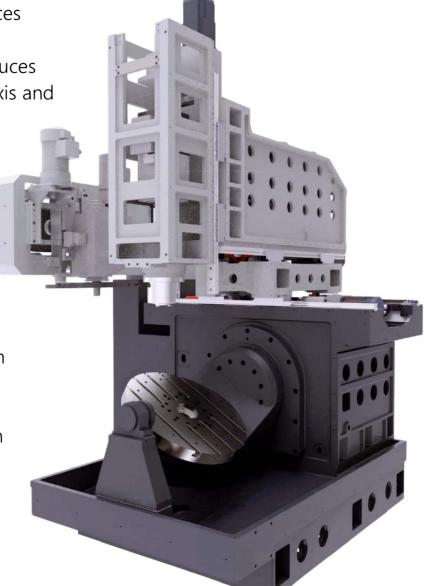

## Machine Structure

The optimised design of the headstock structure enhances thermal stability, and the lightweight design also reduces the overall load on the Z-axis and improves processing performance.

Chain type magazine, standard 40 tools, options 60 tools.

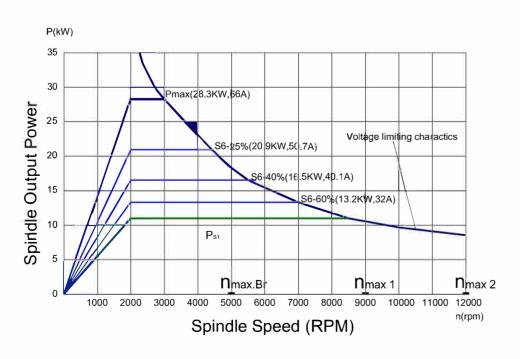

The B/C axis has a tighter structural design and excellent accessibility, which facilitates the integration of manual operation and automation systems. Driven by precision worm/gear or built-in motor.

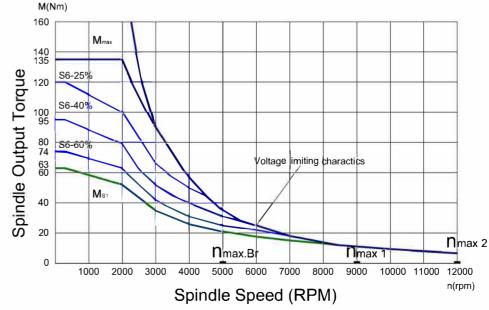

The X/Y/Z axis adopts precisiongrade roller linear guide rails and heavy-duty sliders to enhance the load-carrying capacity of the transmission system and improve the processing performance of the machine.

The high-quality gray cast iron box-type bed design improves the rigidity of the bed structure.

### Spindle Motor Power & Torque Characteristic Curve

#### Standard Features

Controller: SINUMERIK ONE, 19" Screen 15000rpm DDS Spindle (With Chiller) BBT40

Tool Magazine Auto Door Worm Gear Type B/C Axis Surround Tool Coolant

Coolant Chip Flush + Coolant Wash Gun

Auto Central Grease Lubrication

Automatic Power Off Remote MPG Hand Wheel

B/C Axis Encoder
2 Color Stack Light, LED
Chiller For Power Case

#### **Optional Features**

Chain Type Magazine ATC, 60 Tools

Built-in Motor Type B/C Axis

Coolant Through Spindle (CTS) 20bar

Air Gun

Cutter Air Blast

Hinge Type Chip Conveyor Scraper Type Chip Conveyor

Chip Cart

X/Y/Z Axis Linear Scale

Part Probe RENISHAW OMP40-2+OMI-2T

Datum Ball, RENISHAW D19 Table Hydraulic Fixture, 4 Port

 $\frak{\%}$  To keep improvement and developing new functions, Bridgeport Machine Company reserves the rights to change specifications without further notice.
